

# Information about COVID-19

Dear Friends,

More and more churches in our denominational area are reporting COVID outbreaks these days. The less severe variant that is spreading is just as contagious. This fact, coupled with the current rise in hospital admissions for patients over 70 years of age in recent weeks gives us pause to consider how we come together as a faith community. In the spirit of "doing no harm," we are recommending your consideration of wearing masks for large indoor gatherings at this time. I appreciate your willingness to help.

With Kind Regards,  
Joe
